

OVERVIEW

The EZ Connect™ N Pro Draft 11n Wireless PCI Adapter (SMCWPCI-N2) is another cutting edge introduction in 2.4GHz wireless communication for desktop computers. Designed for the home and office, this wireless PCI adapter provides the speed, coverage and security expected by today's wireless users. The SMCWPCI-N2 is Wi-Fi CERTIFIED™ for full compliance with the 802.11n draft v2.0 standard, as well as the popular Wireless-G (802.11g) and Wireless-B (802.11b) standards. This next generation adapter utilizes advanced MIMO (Multiple-In, Multiple-Out) technology to deliver incredible speed and range. With wireless speeds up to 300Mbps and up to 11x the coverage, there is enough bandwidth to simultaneously stream video and audio, play

online games, transfer large files, make VoIP calls and surf the Internet. With security being a key consideration, SMCWPCI-N2 supports the latest WPA and WPA2 wireless encryption standards, which prevent unauthorized access to wireless networks and ensure data is secure. Wireless security can also be set up easily using Wi-Fi Protected Setup™ (WPS) that enables push button or PIN configuration. Finally the SMCWPCI-N2 includes an easy installation wizard which guides you step-by-step through the install process. Once installed the WLAN utility allows you to scan for available wireless networks and manage multiple network profiles so connecting becomes instantaneous.

FEATURES	BENEFITS
Wireless-N (802.11n draft) compliant	Delivers speeds up to 300Mbps and up to 11x the coverage. Perfect for streaming video and music, online gaming and networking multiple PC's.
802.11b/g compliant	Full backwards compatibility with Wireless-G (802.11g) and Wireless-B (802.11b) standard products.
