
INSTALLING **THE SETUP.EXE** REINVENTED

INSTALLING NETWORK EQUIPMENT WAS NEVER THAT EASY

The **Setup.exe** is a problem solving miracle designed by Network Engineers. Through its ingenious design, one person is able to do the work of two people when setting up or dismantling a network cabinet.

Use it as a table for your laptop or while terminating patch panels. It can also carry your most important tools like a screwdriver, spare cage nuts, cable ties and so on and is mounted in the cabinet within just three seconds.

Setup.exe is the ultimate tool for everyone working on network cabinets!

Installation and maintenance is quick,
easy and neat with patchbox.com!

Benefits You Only Get With SETUP.EXE

THE FUTURE OF RACK INSTALLATION

SETUP DESK

*A fast mount desk
that you can have
always with you*

Desk on the go - Stop trying to hold a laptop with one hand, type with the other and then with your third hand connect a cable. Rest your laptop on **Setup.exe** and take it easy.
It even has a rubberised top so your gear does not slip off.

THIRD HAND

*Install/remove
heavy equipment
with up to 15kg
with one person*

A one person installation is now possible as **Setup.exe** is now your trusty assistant, able to support up to 15Kg while you fix everything into place. You don't need a trainee anymore. Simply mount it up side down and the equipment slides in easily.

TOOL DEPOT

*Carry your
important tools
and spares
with you*

Now that you do not have that trainee with you anymore you only have yourself to blame when you forget i.e. cage nuts. But don't worry, with the **Setup.exe** you'll always have spares with you including a screw driver and Zip ties.

Just don't forget your **Setup.exe!**

Enhance your network cabling
with [patchbox.com!](http://patchbox.com)
