
CABLING NETWORK CABINETS REINVENTED

The Award Winning Cabling System

The **PATCHBOX[®] Plus+** is the state of the art cable management system; fast and neat. It replaces conventional cable management and patch cords completely with an all-in-one solution.

The **PATCHBOX[®] Plus+** with its retractable cables, provides the user with the exact cable length needed. No more overly long cables, creating a cabinet full of cable spaghetti. Installation time is dramatically reduced and due to the clean setup maintenance can even be done remotely further reducing costs.

Installation and maintenance is quick,
easy and neat with patchbox.com!

Benefits You Only Get With PATCHBOX®

THE FUTURE OF PATCH CORD MANAGEMENT

EASY DOCUMENTATION

Only accurate documentation is good documentation. Forget about sticky labels, forget about expensive third party or manufacturer labeling solutions. We provide you with tear off labels that simply slide onto the front of each cassette. Depending on your setup, you just have to write i.e. „A1“ on the label and due to the physical switch port assignation to the cassettes (*cassette 1 is connected to switch port 1 and so on*) you see with a blink of the eye what your connections are.

BETTER AIRFLOW

800mm wide cabinets are used mainly because of the extra space on the right and left side of the 19" mountings. That extra space is commonly used to hide and store excess cable. The problem with that is, most active components have their fans on the side and those are blocked from the cable clutter. Overheating can cause a lot of unwanted downtime and extra maintenance.

600MM CABINETS INSTEAD OF 800MM WIDE

The PATCHBOX® uses flat patch cords, 100% tested according to ISO Class E Standards (Category 6). Our flat patch cords only use 1/4 of the space a conventional patch cord would need. With that and our cable management, the **Patchcatch™**, those extra 200mm cabinet isn't needed anymore.

You can now fit four 600mm network cabinets in the same space as three 800mm cabinets.

Enhance your network cabling
with patchbox.com!

Logic

Achieve the impossible! An overview in your cabinets, and know in any situation what is connected.

Fluke Certified

Every single cable, fibre and copper, is tested according to ISO standards.

10X FASTER MAINTENANCE

Due to the perfect overview and the cables in the right place, maintenance is sped up by the factor of 10!

Stays Neat

You will not have any cable clutter anymore because of perfect patching.

Cable Management Included

Cable management reinvented and included. No more traditional cable management needed.

5 Year Warranty

We will replace it if it breaks.

The PATCHBOX® Plus+ Is Super Easy To Use

ONLY 4 STEPS ARE REQUIRED

OPEN BOX

Step one

Open the Pizza box

INSTALL PATCHBOX®

Step two

Mount the PATCHBOX®
in your cabinet

INSTALL PATCHCATCH

Step three

Mount the Patchcatch
in your cabinet

CONNECT

Step four

Connect it to your switch
and patch panel

Patch neat. Patch fast.
