Description

New active optical HDMI cable, HDFC-100 is designed compact enough to be fitted into various installation environments. The HDFC-100 enables to transmit 4K 60Hz(4:2:0), 4K 30Hz(4:4:4) signal up to 150m (492feet) over hybrid cable, avoiding any tricks such as scaling or data compression for lessening a burden of data transmission.

The HDFC-100 gives slim, light, easy installation like a general copper HDMI cable. With low power consumption technology in OPTICIS, the HDFC-100 can be operated by DDC 5V in HDMI port without any external DC power or USB power.

It supports CEC, EDID, HDCP (High Definition Contents Protection) and ARC for better installation flexibility and compatibility.

The shipping items are shown as follows;

- 1) One (1) AOC cable
- 2) User's Manual

Absolute Maximum Ratings

Stresses in excess of the absolute maximum ratings can cause permanent damage to the device. These are absolute stress ratings only. Functional operation of the device is not implied at these of any other conditions in excess of those given in the operational sections of the datasheet. Exposure to absolute maximum ratings for extended periods can adversely affect device reliability.
